

REGION 6 EXECUTIVE SUMMARY

TOPIC: **Falcon Refinery Superfund Site**

DATE: June 25, 2014

CONTACT: Brian W. Mueller.

PURPOSE/ACTION NEEDED: For Information

DEADLINE DATE: June 25, 2014

BACKGROUND:

- The Falcon Refinery Superfund Site is located Ingleside, Texas.
- The site is an inoperative petroleum refinery with numerous documented releases of crude oil and refined products and is operating as a crude oil storage terminal.
- EPA has taken over the site after the former owner failed to make adequate progress in completing the RI/FS for the site. The site is now a Fund lead site and considerable sampling has been conducted by the former owner and EPA.

CURRENT STATUS:

- EA Engineering is conducting the Remedial Investigation.
- EPA expects (given adequate funding) the RI/FS to be completed by September 2015.

KEY MESSAGE:

- The RI work is progressing.
